

ANTENOR E400: The robust Change Machine.

- Changing money to two up to 4 types of coins.
- Accepts Banknotes, coins and/or Proton
- Flexible change programs
- Very robust and reliable
- Simple to use for both Users and Operators.

Applications.

The E400 is the appropriate automat to change money into 2 up to 4 types of coins at an unattended place. The product is very popular at Car Parkings, 24/24 self-service laundries, swimming pools, ... typically in those applications where change money is required to buy goods or services with coins. When personnel is not available or can not be disturbed, when vandalism or attacks can not be excluded, the E400 can help you with a reliable, safe and permanent point of change.

Modular Change Programs

The Antenor E400 change machine can be configured to accept banknotes, coins and or Proton. The automat can give change money out of 2 to 4 coin hoppers supporting coin recycling. The E400 can be configured with a straight forward auto-pay mechanism or can be equipped with a number of vandal resistant buttons to provide maximum flexibility to the users. In this case, individual buttons can be assigned to individual coin values, one button is typically used to change the remaining value in an optimal coin-mix. The consultants of Antenor can help you to configure the most adequate machine for your particular application and environment.

Robust and Reliable

The E400 is extremely strongly built to resist attacks and vandalism. Built as a safe, the cabinet is made of 4mm steel. The door is over 7mm thick including a brushed stainless steel front plate; it has hidden hinges and a safe lock mechanism with 4 strong bolts. The automat weights over 100 kg and is additionally fixed to the wall. All these measures contribute to a very safe and vandal resistant automat.

The E400 is built based on the proven Antenor CPU-A controller and extensions. All payment modules and accessories have been carefully selected by Antenor to assure the most reliable operation throughout its long life cycle.

User and Operator Friendly.

Thanks to a clear LCD display, a descriptive user guide and unambiguous icons, the J400 will guide both novice and frequent customers to an efficient usage. The product can be configured in Dutch, French or with other language variants on request.

For a seamless exploitation, the E400 keeps track of all change transactions. Statistics on coins delivered or money received by the different means can be provided using a straight forward operator menu or can be printed out comprehensively on a printer or PC.
